No 10991/12 Dated 26/8/13 Received 31/8/13

Diary No 5855	Enclos 1	Spare Copies	Serial No 2

BRIEF ABSTRACT OF LETTER

Recommends that under the circumstances stated, the monthly grant of Rs 100 now in aid of the Industrial School attached to the Lakshmi-Narasimha Dharmaprathvasalu, Bangalore, may be raised to Rs 250 from 1-7-1913, the necessary provision Viz Rs 1800 for being included in the Budget Estimates of 1913-14 and other Special Schools for 1913-14.

NOTES AND ORDERS

YK Dated with Edn file No 64-08 (Ds 1 to 3) containing the papers sanctioning a monthly grant of Rs 100 to the Industrial School referred to. The grant was sanctioned from 1-1-1909. The cost is met from the Local Funds General and is included in the budget Estimates

2 The present establishment charges of the Sri Lakshmipuraswaraswamy Dharma-Pathasala and the Indl School attached to it are said to be Rs 200 p.m. ~~Formerly~~ the Dharmapathasala is maintained from the income of the endowment of Ponnapakam Doddamma Sathy which amounts to about Rs 29000 and which has been accepted as a deposit under the Rules for the deposit of charitable endowments 4 percent interest is allowed on this sum under the Rules Thus the income will be about Rs 100 per Cent of the establishment charges of Rs 200 p.m. Rs 100 seem to be met from the above ~~income~~ mentioned income from the endowment fund and the balance from the Govt grant of Rs 100

3 The Cost of the Indl School is not separately given as the teachers employed in the School work in the General and Industrial classes. ~~Excepting the Cost~~ The Honorary Secy of the School Requests

the rest of the money needed for the improvements will be found by the management

11 It is also not clear from the reports furnished by the D.I. what is the standard of the school. It is a question for consideration whether the school is serving a useful purpose by giving a little dose of general education & a little dose of industrial education to all its pupils indiscriminately & whether the school cannot be turned to a better account by laying more stress on industrial education & making it a place where boys can become good weavers, or good carpenters or good rattan workers soon with a certain amount of general education thrown in. Bangalore would perhaps be all the better for ~~a~~ a good industrial school of that kind. If such a scheme finds favour with Govt with Doddanna's committee Govt help may be even further extended

Final Note by the First Member of Council

Subject: Increases of monthly grants to schools

(46) The Inspector General of Education has submitted a proposal to increase the grant paid in aid of the Sri Lakshmi Narasimha Dharma Patasala at Bangalore from Rs 100/- to Rs 250/- per mensem

(47) In Government Order No 7075-4/Edn 64-08 dated 29th January 1909, a monthly grant of Rs 100/- was sanctioned in aid of the Industrial classes opened in this institution. In view of the excellent work the institution is reported to be doing and of the necessity to afford encouragement towards making it more efficient the Inspector General recommends that the present grant may be raised to Rs 250/-

(48) I inspected the school in company with the Inspector General of Education and found that it had the ordinary classes of an Anglo-vernacular school up to the Lower Secondary standard The boys are also required to learn Drawing and in addition they learn either rattan work or carpentry

(49) I consider that it is desirable to continue the present character of the institution as a literary and practical school and to increase the present grant to Rs 250/- on certain conditions which are embodied in the draft order put up

(49) These conditions are agreed to in the main by the Inspector General of Education

Bangalore 26th March *1913*

From M Shama Rao Esq M A
Offg *Inspector General of Education in Mysore*

To C S Balasundaram Iyer Esq B A
Secretary to the Government of His Highness the
Maharaja of Mysore in the Departments of Education &c

Sir

I have the honour to submit herewith a copy of letter No 173 dated 15th November 1912 from the Honorary Secretary Sree Lakshmi Narasimhaswami Dharma Pathasala Bangalore applying for an increase of grant for the school and to state that the school consists of two sections - one literary and the other Industrial The two sections are located in one and the same building and out-houses attached thereto All the pupils of the Literary Section are also taught in the Industrial Section The teaching staff also is the same for both the sections Each of the teachers is now working 4 hours in the morning and 4 hours in the afternoon The work is so adjusted as to secure Industrial instruction to all the pupils of the Literary Section

2 The Industrial School consists of two sections - one for Carpentry and the other for Rattan work Besides instruction in these two sections Drawing Clay modelling and Kindergarten are learnt by all the pupils The number on the roll in the Carpentry Section is 93 and in the Rattan work section 83, in Drawing and clay modelling section ~~xxxx~~ 264 and in the Kindergarten section 88 The highest standard taught in these subjects is of an Elementary grade There are three instructors besides the Superintendent who is a

graduate

graduate and was the Superintendent of the Mysore Industrial School some years ago The Superintendent teaches Drawing and Clay modelling and is paid Rs 50/- a month The three instructors -two for carpentry and one for Rattan work- are reported to be qualified Assistants who are paid Rs 30, Rs 30 and Rs 20 a month respectively The total monthly cost of the present establishment is Rs 200/- of which the Government contribution is Rs 100/- Instruction in the school is free to all pupils The surplus amount over and above the Government grant is met by the founder of the Institution Scholarships to the amount of Rs 10/- a month are granted to deserving pupils

3 A new building is in course of construction and will be ready before the end of June 1913 After the completion of the building it is intended to open classes for additional subjects such as Weaving and Smithy and provide for as many branches as possible to impart instruction in the group of optional subjects prescribed by the School Final course in Group C The Honorary Secretary prays that the present grant may be raised by Rs 400/- in order to meet the cost of engaging the services of highly qualified and fully trained instructors and also to give increases to the existing staff who are working efficiently on less pay The Deputy Inspector of Schools who inspected the school states that the school has been doing excellent work and that the present grant is quite inadequate and disproportionate to the useful work turned out in the school, and to improve still further the efficiency of the institution by giving encouragement to the existing staff and affording scope to appoint additional teachers an increase to the grant is highly necessary He recommends that the present grant may be increased to Rs 250/- and distributed as follows -

For Carpentry class	Rs 75/-
For Rattan work Class	Rs 75/-
For Drawing, Clay modelling and stone carving classes	Rs 100/-

4 Under these circumstances I request that Government may be pleased to sanction the increase of grant by Rs 150/- per mensem towards the cost of improving the school as set forth by the Honorary Secretary

Secretary with effect from 1st July 1913 and order its inclusion in the budget estimates of the Industrial and other special schools in Mysore for 1913-14

In re Additional Grant

When the school was opened on 10th March 1906 I applied for a Grant-in-aid of Rs 250/- per mensem for fitting up the industrial section of the institution At the outset the Government was pleased to sanction only Rs 100/- per mensem I need hardly point out that this sum is quite insufficient to pay the teachers monthly their salaries The establishment now costs about Rs 150/- per mensem exclusive of material and other costs The teachers are all underpaid They are clamouring for increases Weaving and Smithy will have to be introduced I was waiting for the completion of the building before going to you for the additional grant Now that there is the chance of completing the building before the expiry of the current official year, I have taken the liberty of addressing this letter to you with a request that the grant be raised by Rs 400/- per mensem so as to make a total grant of Rs 500/- per mensem It is intended to make a provision for as many branches as possible for imparting instruction in the next year's budget for the grant herein applied for. I shall endeavour to get a sufficient number of teachers to equip the inductrial section of the Institution Any suggestion by you in this direction will be highly welcome and effect will be given to it

I shall make a further request for a grant of non-recurring fund to enable the School authorities to purchase and equip it with upto-date plant and machinery hich might be found necessary for imparting instruction in the several branches undertaken by the Institution I may here bring to your

kind notice that no such grant has yet been made till now

SIR With reference to correspondence ending with your letter No 3269/Edn 311-12-6 dated 5th September 1913 calling for certain information regarding the increase of grant now paid to the S L N Dharma Pathasala Bangalore I have the honour to forward herewith copies of letters No 177 dated 24th March 1914 and No 123 dated 1st November 1913 from Mr Doddanna Setty the donor and to state as follows -

2 The Managing Committee as constituted at the beginning of the school consists of the marginally noted gentlemen but I am not able to say how far the Committe is managing the affa of the School as I have never been invited to any meeting

Industrial Section under a Superintendent one Lakshmanasami Naidu who holds a certificate in Drawing Mr Doddanna Setty is, from the tone of his letters, evidently in favour of retaining the existing arrangement without outside interference as regards the staff and supervision of the school

The present Head Master of the Literary Section though qualified, is not a full-time teacher and in my opinion, if the grant is to be increased a qualified permanent Head teacher should be appointed The other teachers in the Literary and Industrial Sections are fairly qualified and the curricula of studies in the Arts and Industrial Sections also are not open to objection The increased grant may be sanctioned, subject to the conditions that the appointment of all teachers should be subject to the formal approval of the Inspector General and the Committee should meet at regular intervals, and submit their proceedings to the Inspector General of Education from time to time

4 With regard to the introduction of more branches in the Industrial Section the donor promises to carry out the wishes of Government

I have the honour to be

There was one pupil getting a scholarship of Rs 5/- a month and 5 pupils getting a scholarship of Rupee 1 each a month Raw materials and contingencies worth Rs 50/- are supplied by the Founder Thus the total cost of the Industrial Section as it stood on 19th December 1912 came to Rs 201/-

The acting Superintendent Lr I Shams Rao is overworked and does not seem to be satisfied with the allowance he is now getting as he is an eminent artist and is capable of earning more in a shorter period The other instructors who have been very earnest in their wor also are in need of encouragement especially under the circumstances of double wor turned out b them

I therefore beg to recommend that the present grant of s 100/- may be kindly increased to Rs 250/- with orders to distribute it as follows -

For Carpentry class	Rs 75
For Rattan wor class	Rs 75
For Drawing Clay-modelling and stone carving class	Rs 100

The grant of Rs 100/- now favoured to the Institution is quite inadequate and disproportionate to the useful work turned out in it To improve still the efficiency of the Institution b giving encouragement to the existing staff and affording scope to appoint additional teachers an increase to the grant is highly necessary

When I inspected the Institution no arrangement was found to have been made to give instruction in Weaving and Smithy Work But I was told that the services of capable men would be secured for this purpose as soon as support from financial point of view was favoured In case necessary arrangement is made to give instruction in these works I would beg to recommend that an additional grant of Rs 100/- for each of these two classes may be kindly sanctioned

The enclosures received with your docket under reference are returned herewith
